**NOTICE – IMMEDIATE ACTION REQUIRED**

The Federal Motor Carrier Safety Administration (FMCSA) was notified that [REDACTED] designation of process agent (Form BOC-3) is no longer valid. All motor carriers with operating authority must have a designation of process agent on file with FMCSA. In order to avoid revocation of operating authority granted by FMCSA, all registered entities are required to maintain a designation of process agent on file with FMCSA.

The Federal Motor Carrier Safety Administration (FMCSA) was notified:

- There is no current process agent filing on record for your company.

To remain in compliance with the requirements pertaining to agents for service of process, 49 C.F.R. part 366 and 49 C.F.R. § 390.205, you must file a new designation of process agents with FMCSA. You may view a list of some private companies offering process agent services and Form BOC-3 filing for designated agents with the FMCSA on the website at <http://www.fmcsa.dot.gov/registration/process-agents>. Failure to comply with these statutory and regulatory requirements could subject your company to civil penalties and/or suspension of your registration(s).

**It is ordered:**

By this Notice, FMCSA hereby commences a proceeding under 49 U.S.C. 13905(d) and 49 U.S.C. 31134(c), to revoke the operating authority identified in this notice. Within 30 days after this notice is served, the applicant must establish that it is in full compliance with 49 USC 13303 and/or 13304, 49 CFR part 366, and 49 CFR 390.205. Compliance may be established by filing the appropriate prescribed FMCSA Form BOC-3. The BOC-3 filing must be electronically transmitted via [www.fmcsa.dot.gov/registration](http://www.fmcsa.dot.gov/registration).

**The applicant is hereby notified that failure to file a designation of process agent shall result in the revocation of the operating authority identified in this notice effective May 5, 2022.**
